In carrying out the terms of my Water Quality Program for Agriculture participant contract, I am requesting information on availability of cost-share funds prior to installation of Best Management Practices within the above contract item number(s) and amounts.

I anticipate beginning implementation of the above scheduled Best Management Practice(s) by \_\_\_\_\_ (date) and completing installation by \_\_\_\_\_ (date).

If I do not complete installation within the time specified, cost-share funds allocated for this implementation may be released and I must re-apply.

I understand that approval of cost-sharing by the Soil Conservation Commission is necessary for funds to be available upon completion of practice installation.
